Mr. Seymour in 1868. To anybody who remembers the state of things in this country in 1868, it cannot be natter of surprise that the man who that year ran against General GRANT for Presiat should have received a smaller majortty in New York State than did the man who ran against GRISWOLD for Governor. The cause of astonishment is not to be found in the fact that Mr. SETMOUR received a majority of only ten thousand, but that was not overwhelmed by the extraordinary popularity of General GRANT, who was then known only as a victorious soldier, and enjoyed the confidence, respect, and admiration of the entire people of the North. Virginia and other southern States were still out of the Union, and had no voice in the election of President in 1868. Mr. SEYMOUR led a forlorn hope. Nobody had any idea that there was even the least possible chance of his success. The October elections in Pennsylvania, Oblo, and Indiana went against the Democrats, and left them not a single reason for expecting to elect their candidate for President. And yet under these unfavorable circumstances, when it seemed well-nigh impossible that he should do so, Mr. SETMOUR carried the great State of New York by ten thousand majority. If any evidence were needed of his overwhelming opularity in that State, it is afforded in the acts above referred to. And if under such circumstances he. was able to stand up before the hero of the war, who then had no political enemies, is it not too plain to be soubted for a moment that he could carry New York against GARFIELD, under the different circumstances which now exist, by

In the one case, Mr. SEYMOUR ran only as a patriotic duty. The New York World, after the October elections had resulted so disastrously to the Democrats, had proposed to withdraw SEYMOUR and BLAIR. There was no ground upon which to base a hope that they would be elected, yet Mr. SEY-MOUR swept his own State, carrying also the weight of FRANK BLAIR, by ten thousand majority over a man flushed with military victories, a man without a civic record, a man whom the whole North regarded as the foremost soldier in the world; and to whom they looked as the savior of the nation. He achieved an unparalleled triumph in carrying New York at all. At present, the Democrats control both houses of Congress. They expect to carry all the southern States. (Mr. SEYMOUR would have been elected President in 1868 if they had been free, and had all voted the Democratic ticket.) They are almost sure to carry Indi. ana. All that they need is the vote of New York. Is is not almost as certain as certainty itself that under these circumstances Mr. SEYMOUR Would carry New York? No unprejudiced man can fail to perceive that he has only to allow his name to be used to insure a majority of fifty thousand to the Democratic ticket in New York.

fifty thousand majority?

How it Stands Now.

The New York Herald, after stating that 644 of the 788 delegates to the Democratic National Convention are already chosen, apportions those chosen as follows: TIL-DEN. 185: BAYARD, 117: HANCOCK, 84: SEY-MOUR, 68; THURMAN, 67; FIELD, 44; HEN-DRICKS, 37; RANDOLPH, 18 (in New Jersey); CHASE, 14 (in Maine); MORRISON, 8.

He offered a resolu-tion instructing the delegates to vote as a unit at Cincinnati. delegates, and if so will have the entire delegation. But will Mr. SEYMOUR accept? That is the pending question.

It is not for us to withdraw Mr. SEYMOUR. The telegram from Utica which we published on Saturday last was based upon the authority of the Utica Observer. The pub-He will doubtless learn in the course of a very few days whether Mr. SEYMOUR has made up his mind (and will not change it) not to accept the nomination of the Cincinnati Convention.

When the GRANTS, the CONKLINGS, and the CAMERONS in the Republican party, and so many leaders in the Democratic party, are moving heaven and earth to secure the presidency for themselves or their friends, it speaks well for human nature that there bas been found a statesman of national reputation, unsullied character, and undoubted patriotism, who refuses to seek the highest office in the world, and is not even willing to accept it.

We published last week Mr. John M. ORR's powerful argument in favor of the nomination of Mr. BAYARD by the Cincinnati Convention-an argument which his friends ought to print in pamphlet form, and sow broadcast over the whole country. Brigadier's ingenious, candid, fair, and almost convincing statement of the reasons which ought to influence that Convention to nominate General HANCOCK. It is of course not from our regular Washington correspondent. I. N. B., or the Confede rate Brigadier, gives us also a little "taffy," which, as the world goes, we are, we suppose, justifiable in not hiding from our readers.

We think the failure of CONKLING, CAME-RON, and LOGAN, at Chicago, is sure evidence at least that the delegates to a National Convention of either party are as a rule men who cannot be moved by any undue influences to nominate an aspirant who ought not to be a candidate.

Speaking of that resolution of the Chieago platform which we said on Saturday the Republicans would construe in one way and the Democrats in another, the Augusta (Ga.) Constitutionalist says:

"It would tax, we imagine, even the proverbial ingenuity of a Philadelphia lawyer to tell what this paragraph really does mean. Perhaps Mr. Pierrepont will undertake to play the rôle of interpreter."

Confederate Brigadier Tells Why General Hancock Ought to Be Nominated for President.

WASHINGTON, D. C., June 12, 1880. To the Editors of the Richmond Dispatch . The review of Democratic candidates for the presidency, in the Dispatch of June 10th, has attracted much attention here. The nominations at Chicago have unquesionably served to bring Seymour again to the front, and he has never boomed up in the minds of the Democrats gathered at the capital as he does to-day. I asked a repre-sentative Confederate brigadier this mornng if he had read your editorial. He re-

All the eyes of those who are seeking success, instead of intriguing for per sonal preferment or for access to some one bar'l, are turned toward the New York sage, who unquestionably occupies the first place in the Democratic heart. But I observe that the Dispatch does not exhaust the Sey-mour question. It doubtless did not fall within the scope of its article to point out

that, besides Mr. Seymour's own attitude toward his own nomination, his availability accept Seymour or to support his candidacy, the case will be different. The neces-sity of going outside of the New York fac-tions for a candidate who can unite them will then become evident, and the question will arise, Who is the best candidate for

Besides, it is known that all such prominent Union soldiers and reliable Democrats as General W. B. Franklin, General W. F. (Baldy) Smith, General Henry W. Stocum, and General Martin J. MacMahon, are earnestly in favor of Hancock's nomination. This soldier element has been too much neglected by the northern Democrats, and it ought to be considered at this time. "What sort of a Cabinet do you suppose Hancock would have if he should be elected President?" asked your correspondent.

"Rather early to be talking of that," repilled he laughing, "but I believe it is easy amough answered. One advantage of Hanck's nomination is that it would keep at he front the ablest men in the Democratic the front the ablest men in the Democratic party, while almost any other would exclude them. Hancock could not be beaten by Garfield. McDonald would probably be put on with Hancock for Vice-President. That would give Hendricks his choice of returning to the Senate, where his wise counsel is much needed, or of a seat in the Cabinet, and Thurman would also go into the Cabinet. The nomination of Payne. Jewett, Field, or any of that set, ends Thurman's rubble career, which would be an man's public career, which would be an irreparable loss to the Democracy and nation, who will need him sorely for the next dozen years, and all the more if we are in power than if we remain in opposition. Taking it all in all, Hancock is not such a very dark borse."

The parties were taken into custody on the steamer Rhynland, on arrival in Philadelphia, and carried to New York. The prisoners claim that they are mistaken for other parties of the same name. They were committed to Ludiow-Street jail for examination. The alleged forgeries amount to \$12,000, principally on merchants in Remscherat, Prussia.

The water is freestone are exceedingly mild, making this section peculiarly desirable for invalids as a winter resort from the more rigorous regions of the northern and western States. Quite a number of guests from the North and Wests spent last winter here.

As a summer resort Norcross is becoming quite popular. Among the guests now here are ex-Governor J. M. Smith and wife. The hotel is full, and many private families are taking boarders.

The Atlanta and Charlotte Air-Line road run an accommodation train from here to Atlanta, thus enabling business men to reside here and transact business in Atlanta.

The people are warm-hearted, generous, peculiarly desirable for invalids as a winter

The people are warm-hearted, generous, and hospitable. To be a Virginian is enough

to secure their esteem and good-will.

I was surprised to find Richmond manuuse a great deal of tobacco, but most of it TRUNKS, BAGS, and SATCHELS at manufaccomes from Lynchburg or Danville.
